A Few Words from our Chairman

Greetings Optimists

I hope you all had a great summer? It has certainly been busy for the Club with a mixed league superbly organised by Jason Wilkins who sadly will not be playing for the Ops this season due to a change of job and location, but I'm sure we'll see him now and again when he can visit.

We have had Optimists representing Kent, East Region, England and Wales including Will Mead, Max Howitt, Deryl Gilham-Jones, Vic Carney, Keir Starley, Kay Parsons, Trudy Bray and most recently Brian Murrill who won gold with England over 75's!!

Janet Fuller ran "Back to Hockey" sessions during the summer with a good turnout including parents who were inspired to pick up sticks for the first time having watched their children play.

And here we are embarking on our 92nd season with everything in place - lights sorted, fixtures confirmed, water cannon serviced, new sponsors for men's and ladies 1st XI coaches and banners up, Shepway Leisure staff looking forward to having hockey people "back in the house", new bar menu, 4 pint jugs of San Miguel for £13 and other drinks deals, dug outs being moved next week to opposite side of pitch as part of project to install spectator seating, new nets on goals for league games, and much more !!

A warm welcome to Nigel D'Cruz who is coaching and managing the Ladies 1st XI this season. Good Luck to him and all of you.

Brilliant time to be an Optimist!!!

Leigh Marshall

Playing notifications

The club currently uses **TEAMER** player management software to notify players of their games and fixtures. For this system to work the Men's and Ladies selection committees rely on prompt replies whether by email or SMS. Please make sure your email and phone number are always up to date on the system as this can only be carried out by you. If you know in advance that you cannot play on a certain date, then **Teamer** allows you to put a notification that will automatically tell the selection committee you are unavailable.

Please check your email regularly as **Teamer** messages will come through there due to the cost of sending them out via text message.

If you need to get up to speed with how **Teamer** works then visit their website at: www.Teamer.net where there are numerous videos, and help information.
